

New Hichrom Short Seminars for 2017

Data Integrity Awareness (½ Day)

This ½ day course is aimed at analytical chemists who need to familiarise themselves with the essentials of data integrity and gain a better understanding of the key requirements and consequences in this area. This course provides essential information on the MHRA and FDA guidance on data integrity and will help you discover what you need to do to protect both yourself and your company. Key topics include:

- FDA/MHRA Data Integrity Definitions and Expectations
- Controlling Data Integrity Risks in the Analytical Process
- Controlling Risk in Computerised Systems
- Recent FDA Warning Letters

Available as an in-house or off-site course. Contact us for details
